

Georgia Julies

Georgia grew up in Vredendal, a town on the border of the Western and Northern Cape, graduating from high school in 2020.

Georgia studied dance as a school subject and consequently became acquainted with Garage Dance Ensemble who annually visited the school to assist scholars with their dance exam syllabus. In 2021 Georgia joined Garage as a trainee in preparation for further study/professional employment. She graduated in December 2023 and Garage immediately contracted her.

Apart from frequently performing with Garage's part time students and alongside the company, she has regularly operated the sound for the company's full length works including Garage's successful USA Tour hosted by Centerstage.

Judging by Georgia's unprecedented progress as a student during the three years of her training, all indications are that what lies ahead for her is a stellar career.
